

GOMMA   
FLOORING SOLUTIONS

# ABOUT GOMMA

FLOORING SOLUTIONS

## PROUDLY PINOY

GOMMA is a trusted brand in locally manufacturing top quality sports flooring.

## EXTENSIVE PRODUCT RANGE

Offering a comprehensive portfolio of flooring solutions through its sub-brands - GOMMA Force, GOMMA Omnisports, and GOMMA BioTurf.

## CUSTOMIZATION

Our local manufacturing capability enables it to support each unique customer requirement.

## TRUSTED BRAND

GOMMA boasts of its unrivaled quality and durability. Products are odorless, non-slip, heat and weather resistant.

## CONSTANT INNOVATION

Our in-house technology offers a range of top quality rubber matting options with unique lines specializing in sound and vibration insulation.

## SUSTAINABLE AND POSITIVE ENVIRONMENTAL IMPACT

Our products are sustainably developed using recycled rubber materials, designed to minimize environmental footprints.

# THE RIGHT SOLUTION FOR EVERY SURFACE

- Strength and Free Weights
- Cross Functional Training
- CrossFit Box
- Spinning and Cardio
- Indoor and Outdoor Playground
- Jogging and Pathways
- Watersports Facilities

## BIOTURF BY GOMMA

- Cross Functional Training
- Track and Agility
- Indoor Playground

## OMNISPORTS BY GOMMA

- Indoor Multi Sports Area
- Yoga and Pilates
- Martial Arts Training
- Indoor Playground

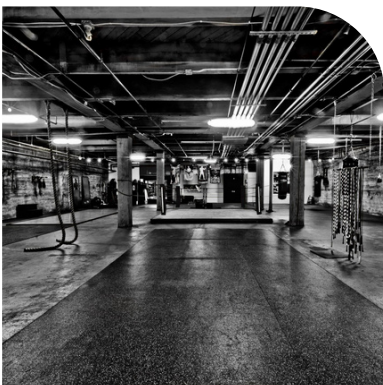

# STEPS TO SELECTING THE RIGHT PRODUCT

**MATCH THE MATERIAL ACCORDING TO YOUR SPORTS OR ACTIVITY.** Find the correct material based on your intended application. Will the space host light cardio or heavy weights training? What type of sports will use this facility most often? Answer these questions when planning for your project.

**SELECT THE LEVEL OF SOUND REDUCTION YOU NEED.** Noise and vibration reduction is an important aspect of designing your facility. Depending on the location and use, this is a vital aspect in selecting the perfect sports flooring.

**SELECT YOUR FORMAT AND THICKNESS PREFERENCE.** Do you want this permanently installed with adhesive, or do you want a versatile space? Do you need them in tiles or rolls? Take time to research the type of system and installation method that's ideal for your space.

# SUMMARY CHART

SUB BRAND	MATERIAL	SYSTEM	SKU	DIMENSIONS	FORMAT
<b>FORCE</b> <small>BY GOMMA</small>	RECYCLED RUBBER GRANULES	FORCE CLASSIC	FORCE CLASSIC 15	THICKNESS: 15MM 500MM (W) X 500MM (L)	STRAIGHT EDGE
			FORCE CLASSIC 25	THICKNESS: 25MM 500MM (W) X 500MM (L)	
			FORCE CLASSIC 50	THICKNESS: 50MM 500MM (W) X 500MM (L)	
		FORCE FITLOCK	FORCE FITLOCK 15	THICKNESS: 15MM 500MM (W) X 500MM (L)	INTERLOCKING
